Listening texts

Listening text 1:

Amphibians can live on land and on water, but they need water or a moist habitat to survive. Like reptiles, they are cold-blooded and they lay eggs. However, amphibians, like frogs and toads, always lay their eggs in water. They have smooth skin, not scales. They can take in oxygen through their skin and their lungs.

Listening text 2:

The water you drink at lunch is a natural resource. Where do the potatoes we eat come from? They're grown in the ground, and this ground is made up of what we call soil. So yes, soil too, is a natural resource. Some resources are what we call renewable. Renewable resources can be naturally replaced when they run out. The sun, wind and falling water are examples of renewable resources.

Listening text 3:

Teamwork is very important for the success of a project. You should share your ideas and feelings with others. Make sure to listen to others ideas too. Stay calm and don't get upset. Be positive and help the other team members be more successful.

Listening text 4:

The smallest bird is the bee hummingbird, which is about 5.5 centimeters long. It lives in Cuba. The biggest bird is the ostrich. It can be 2.5 meters tall! Ostriches are faster than leopards, but they can't fly.
